Department of Nutrition & Dietetics

Checklist - Legislation and Public Policy

This Module does not require your preceptors sign off. Instead, you will maintain all entries and records to be included in your e-binder. This checklist serves as a structure of what to include in your e-binder. You are required to show evidence for each of the items listed.

The intern has:

 ✓ - completed the legislative survey – enclose copy as evidence

 ✓ - contacted his/her senator and/or representative on an identified nutritional concern

- include letter and response as evidence. If no response is received write a reflection to share your thoughts on the outcome.
